Cookies

Our Services use “cookies” to help personalize your online experience. A cookie is a text file that is placed on your hard disk by a web page server. Cookies cannot be used to run programs or deliver viruses to your computer. Cookies are uniquely assigned to you, and can only be read by a web server in the domain that issued the cookie to you.

We may use cookies to collect, store, and track information for security and personalization, and for statistical purposes. Please note that you have the ability to accept or decline cookies. Most web browsers automatically accept cookies by default, but you can modify your browser settings to decline cookies if you prefer.

Data Analytics

Our Services may use third-party analytics tools that use cookies, web beacons, or other similar information-gathering technologies to collect standard internet activity and usage information. The information gathered is used to compile statistical reports on User activity such as how often Users visit our Services, what pages they visit and for how long, etc. We use the information obtained from these analytics tools to monitor the performance and improve our Services. We do not use third-party analytics tools to track or to collect any personally identifiable information of our Users and we will not associate any information gathered from the statistical reports with any individual User.

Do Not Track Signals

Some browsers incorporate a Do Not Track feature that signals to websites you visit that you do not want to have your online activity tracked. Tracking is not the same as using or collecting information in connection with a website. For these purposes, tracking refers to collecting personally identifiable information from consumers who use or visit a website or online service as they move across different websites over time. How browsers communicate the Do Not Track signal is not yet uniform. As a result, the Services are not yet set up to interpret or respond to Do Not Track signals communicated by your browser. Even so, as described in more detail throughout this Policy, we limit our use and collection of your Personal Information. For a description of Do Not Track protocols for browsers and mobile devices or to learn more about the choices available to you, visit internetcookies.com.

Social Media Features

Our Services may include social media features, such as the Facebook and Twitter buttons, Share This buttons, etc (collectively, "Social Media Features"). These Social Media Features may collect your IP address, what page you are visiting on our Services, and may set a cookie to enable Social Media Features to function properly. Social Media Features are hosted either by their respective providers or directly on our Services. Your interactions with these Social Media Features are governed by the privacy policy of their respective providers.

Email Marketing

We offer electronic newsletters to which you may voluntarily subscribe at any time. We are committed to keeping your e-mail address confidential and will not disclose your email address to any third parties except as allowed in the information use and processing section or for the purposes of utilizing a third-party provider to send such emails. We will maintain the information sent via e-mail in accordance with applicable laws and regulations.

In compliance with the CAN-SPAM Act, all e-mails sent from us will clearly state who the e-mail is from and provide clear information on how to contact the sender. You may choose to stop receiving our newsletter or marketing emails by following the unsubscribe instructions included in these emails or by contacting us. However, you will continue to receive essential transactional emails.

Push Notifications

We offer push notifications to which you may also voluntarily subscribe at any time. To make sure push notifications reach the correct devices, we use a third-party push notifications provider who relies on a device token unique to your device which is issued by the operating system of your device. While it is possible to access a list of device tokens, they will not reveal your identity, your unique device ID, or your contact information to us or our third-party push notifications provider. We will maintain the information sent via e-mail in accordance with applicable laws and regulations. If, at any time, you wish to stop receiving push notifications, simply adjust your device settings accordingly.

Affiliate Links

We may engage in affiliate marketing and have affiliate links present on the Services for the purpose of being able to offer you related or additional products and services. If you click on an affiliate link, a cookie will be placed on your browser to track any sales for purposes of commissions.

Links to Other Resources

The Services contain links to other resources that are not owned or controlled by us. Please be aware that we are not responsible for the privacy practices of such other resources or third parties. We encourage you to be aware when you leave the Services and to read the privacy statements of each and every resource that may collect Personal Information.

We secure information you provide on computer servers in a controlled, secure environment, protected from unauthorized access, use, or disclosure. We maintain reasonable administrative, technical, and physical safeguards in an effort to protect against unauthorized access, use, modification, and disclosure of Personal Information in our control and custody. As the security of Personal Information depends in part on the security of the device you use to communicate with us and the security you use to protect your credentials, please take appropriate measures to protect this information.

Data Breach

In the event we become aware that the security of the Services has been compromised or Users' Personal Information has been disclosed to unrelated third parties as a result of external activity, including, but not limited to, security attacks or fraud, we reserve the right to take reasonably appropriate measures, including, but not limited to, investigation and reporting, as well as notification to and cooperation with law enforcement authorities. In the event of a data breach, we will make reasonable efforts to notify affected individuals if we believe that there is a reasonable risk of harm to the User as a result of the breach or if notice is otherwise required by law. When we do, we will post a notice on the Services, send you an email, get in touch with you over the phone, mail you a letter.
